Lena is french multi-producer Mathias Delplanque's dubby techno project. His previous albums were released on various international labels such as Quatermass, Sounds Around and Plush.

Circonstances / Variations is a series of variations around the track *Circonstances*, from the album *Lost-Wax* by Lena and the Floating Roots Orchestra (released in 2008 on Plush).

Without being actual remixes, yet roaming freely from the original track, these variations give Lena the opportunity to develop long, repetitive electronic layers with dub consonances.

This series is co-produced by the labels Bruit Clair and Sounds Around and is to be unravelled on 3 vinyl EPs.
